GLOVE SPECIFICATIONS

PALM LATEX OPTIONS

German Contact Latex — Superior all-weather grip. German Giga Grip — Maximum tackiness for match play. Quartz Latex — Exceptional durability for hard surfaces. Aqua Latex — Optimised for wet conditions. Soft Latex — Training & entry-level performance.

PALM CUT PROFILES

Negative Cut — Tight fit, close ball contact. Roll Finger — Maximum latex surface area. Hybrid Cut — Combines negative & roll for versatility. Flat Cut — Traditional fit, wide fingers. Evolution Cut — Anatomical, next-generation fit.

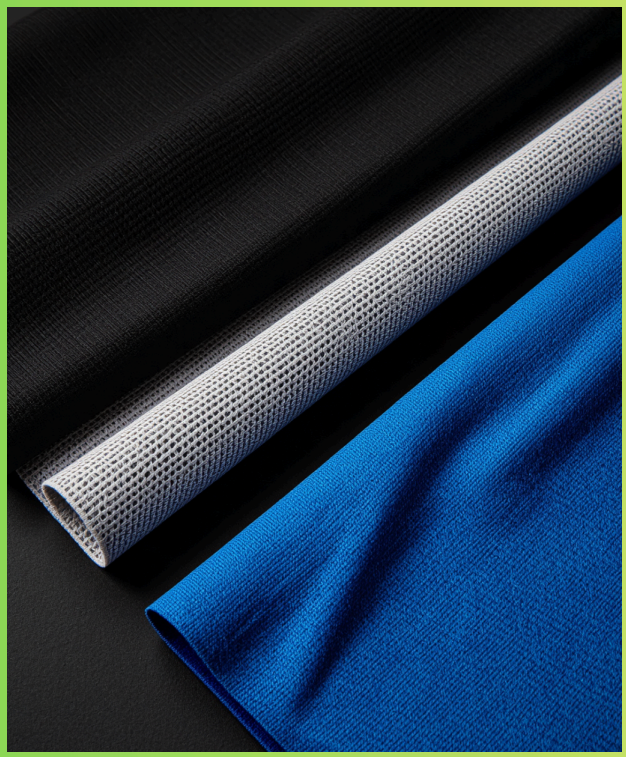

CLOSURES & PROTECTION

Elastic / Double Wrap / Full Latex / Strapless closures. Fixed & Removable Finger Saves. Thumb Protection system. Silicone Punch Zone backhand. Knitted & Mesh body options. Full OEM/ODM branding available.

TEAMWEAR

NEXUS PRO teamwear is engineered for elite performance. From match-day jerseys to full training systems, every garment is crafted with precision fabrics, sublimation-ready construction, and full OEM customisation capabilities for clubs, academies, and brands worldwide.

Engineered for champions.
Built for every level.

COLLECTION

Football Jerseys

Match-grade sublimated jerseys in Dry-Fit Polyester and Bird Eye Mesh. Full custom graphics, Pantone colour matching, club badge embroidery, and sponsor placement. MOQ from 10 units.

Training Kits

Lightweight Interlock Polyester and Micro Polyester training sets designed for high-intensity sessions. Moisture-wicking, breathable, and available in full custom OEM configurations for academies and clubs.

Tracksuits & Outerwear

Premium Fleece, Soft Shell, and Compression Fabric tracksuits with ergonomic panelling. Ideal for warm-up, travel, and lifestyle wear. Full sublimation or screen print branding available.

PRINT TECH

NEXUS PRO deploys industry-leading decoration technologies to deliver flawless branding across every product. From vivid all-over sublimation to precision embroidery, our print capabilities ensure your identity is reproduced with absolute fidelity at scale.

13 Decoration Technologies. One Partner. Infinite Possibilities.

PRINTING TECHNOLOGIES

Digital Sublimation & Embroidery

Full-bleed digital sublimation delivers photographic-quality, all-over colour onto polyester fabrics with zero fade. Pantone-matched embroidery adds premium tactile branding to badges, logos and lettering — built to last the lifetime of the garment.

Screen Printing | DTF | Heat Transfer

High-opacity screen printing for bold, durable graphics on training and teamwear. DTF (Direct-to-Film) enables complex multi-colour artwork on any fabric. Heat transfer delivers precision sponsor logos and name-sets with sharp edges and vibrant colour retention.

Specialty Finishes

Elevate your product with premium finishing options: silicone printing for grip texture and 3D effect, rubber patch badges for raised branding, reflective printing for high-visibility performance wear, foil printing for metallic premium accents, and puff printing for bold dimensional logos.

BRANDING & PRIVATE LABEL

NEXUS PRO delivers end-to-end private label and OEM/ODM solutions. From woven neck labels to premium retail packaging, every detail is crafted to reflect your brand identity with precision and professionalism.

Your brand. Our craft.
Built for the world stage.

PACKAGING SOLUTIONS

Labels & Tags

Woven neck labels, wash care labels, size labels, hang tags, swing tags, barcode labels, and custom QR codes — all produced to retail-grade standards with Pantone-matched colours.

Retail Packaging

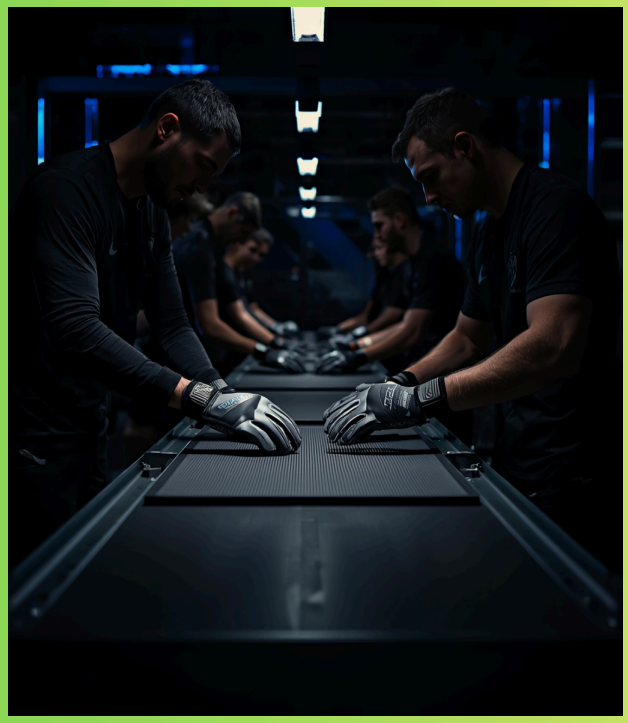

Premium retail boxes, custom printed cartons, polybag packaging, and tissue wrapping. Designed to elevate shelf presence and deliver an exceptional unboxing experience for your customers.

OEM & ODM Manufacturing

Full OEM and ODM capabilities with low MOQs. We manage design, sampling, production, and branding under one roof — delivering your private label product ready for global retail or club distribution.

MANUFACTURING PROCESS

From initial consultation to worldwide delivery, every NEXUS PRO order follows a rigorous end-to-end production workflow. Our process ensures premium quality, Pantone-accurate colours, and on-time delivery for every client.

Performance | Precision | Passion
NEXUS PRO Manufacturing

PROCESS OVERVIEW

01 — DESIGN PHASE

Customer Consultation → Requirement Gathering → Concept Design → Digital Mock-up → Design Revisions. Our design team works closely with clients to deliver pixel-perfect artwork before any sample is produced.

02 — PRODUCTION PHASE

Sample Development → Sample Approval → Material Procurement → Cutting → Printing → Stitching → Assembly. Premium fabrics and German latex sourced to exact specifications with full traceability.

03 — DELIVERY PHASE

Quality Inspection → Branding & Labelling → Retail Packaging → Final QA Sign-off → Worldwide Shipping. Every order is inspected, branded, and dispatched with full export documentation.

QUALITY ASSURANCE

Every NEXUS PRO product undergoes a rigorous multi-stage quality control process. From raw material inspection to final packaging, our QA protocols ensure that each item meets international performance and durability standards before it reaches your hands.

Zero Compromise.
Every Product. Every Time.
NEXUS PRO Certified.

OUR STANDARDS

Inspection Protocols

Fabric Inspection — GSM, tensile strength & colorfastness tested on every batch. Colour Matching — Pantone-accurate verification under standardised lighting. Print Quality — Sublimation, embroidery & DTF checked for sharpness, bleed and adhesion.

Testing Protocols

Grip Testing — Latex palm grip assessed against wet and dry performance benchmarks. Measurement Verification — All sizing checked to ±2mm tolerance per approved tech pack. Logo Placement — Branding elements verified for position, alignment and colour accuracy.

Final Checks

Final QA — 100% product-level inspection before dispatch by dedicated QA team. Packaging Inspection — Labels, hang tags, barcodes and retail packaging verified. Shipment Sign-Off — Export documentation and quality certificate issued per order.

WHO WE SERVE

NEXUS PRO partners with organisations worldwide — from elite professional clubs to emerging academies and corporate teams. Our flexible OEM & ODM solutions are built to meet the demands of every level of sport, delivering premium quality at competitive minimums.

Trusted by clubs, federations & brands across 30+ countries. Performance | Precision | Passion
